

ISHRAQ AHMAD

AI/ML Engineer

New Delhi, India | +91-8470952267 | ishraq_ahmad@outlook.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

AI/ML Engineer with 2 years of experience designing, building, and deploying production machine learning and generative AI systems including RAG pipelines, LLM-powered applications, and computer vision models, backed by strong software engineering fundamentals in Python, FastAPI/Django, and AWS. Full-lifecycle owner who partners directly with stakeholders to translate business requirements into deployed, scalable systems. Comfortable operating across the stack, from model development and evaluation to the backend infrastructure required to ship AI features reliably.

TECHNICAL SKILLS

- Machine Learning & AI:** Machine Learning, Deep Learning, Computer Vision, NLP, PyTorch, TensorFlow, Keras, Scikit-learn, OpenCV, AWS Rekognition, Pandas, NumPy
- Generative AI & LLMs:** LLMs, RAG (Retrieval-Augmented Generation), LangChain, LangGraph, AutoGen, LlamaIndex, Prompt Engineering, Model Fine-Tuning, Vector Databases (Pinecone, FAISS, Chroma)
- Backend & APIs:** Python, Django, Django REST Framework, FastAPI, Flask, SQL, REST API Design, Microservices
- Cloud & DevOps:** AWS (EC2, Lambda, S3, API Gateway), Azure, Docker, CI/CD (GitHub Actions), Deployment & Scaling
- AI-Assisted Development:** Claude Code, Cursor, GitHub Copilot, Cline, Antigravity, OpenClaw

PROFESSIONAL EXPERIENCE

Codersarts — Noida, India

Machine Learning Engineer | Aug 2024 – Present

- Build and deploy LLM-powered systems in production, including RAG pipelines, intelligent document search, chatbots, and automated summarization workflows supporting 1000+ daily document queries
- Develop and evaluate computer vision and NLP pipelines, including video-based facial recognition, emotion analysis, and object tracking, using AWS Rekognition and OpenCV, with 95%+ face recognition precision.
- Architect and ship scalable RESTful APIs, microservices, and database schemas (Python, FastAPI, Django), integrating third-party authentication, payment, and communication services, supporting 5000+ API requests per day.
- Own projects full-lifecycle, partnering directly with stakeholders to translate business requirements into production-ready architecture and leading design, deployment, scaling, and maintenance across multiple client deployments.
- Use AI-assisted development tools (Claude Code, Cursor, GitHub Copilot) to accelerate release cycles cutting delivery time by 70% while maintaining code quality and system reliability

KEY PROJECTS

Sole developer for the following platforms:

AI Classroom Monitor (Proprietary)

Django · React/Vite · AWS Rekognition Video · OpenCV · MoviePy · AWS S3

- Built a classroom analytics platform integrating AWS Rekognition Video for real-time face search, emotion detection, and distraction tracking deployed in 4 educational institutions
- Designed a hybrid AWS DynamoDB/SQLite data layer with Bearer-token authentication, and used OpenCV/MoviePy to render server-side video overlays
- Deployed processed video assets to AWS S3 with pre-signed URLs enabling secure real-time dashboard streaming

Automated AI Healthcare Platform (Proprietary)

FastAPI · React/TypeScript · n8n · OpenAI Whisper · PostgreSQL · AWS S3 · GitHub Actions

- Built a multi-tenant clinical platform with automated patient management, role-based access control (RBAC), and caretaker task workflows for multi-provider healthcare organizations.
- Integrated OpenAI Whisper to transcribe caretaker audio notes directly into structured medical templates reducing clinical documentation time by 60%.
- Configured SQLite/PostgreSQL databases and AWS S3 storage with GitHub Actions CI/CD supporting automated deployment pipelines and rapid releases.

Quizentia · Compelion · HarmoniHeals

Backend Architect

- Architected end-to-end backend APIs, database schemas, and secure authentication for three independent platforms
- Built platform-specific AI capabilities: automated assessment generation ([Quizentia](#)), enterprise innovation analytics ([Compelion](#)), and biometric-based wellness workflows ([HarmoniHeals](#))

EDUCATION

Jamia Hamdard University — New Delhi, India

Bachelor of Technology, Computer Science and Engineering | 2020 – 2024
